Your Innovation

**Describe your
innovation briefly
and in simple
terms.**

**What is it?
What does it do?
How does it do
it?**

Outline the key advantages and benefits of your innovation, business idea or technology.

Consider the key points of difference over competitors.

If no competitors exist, identify key reasons why users would adopt your innovation, rather than take no action.

How did you hear about the Awards program:

Meeting with member of the Commercialisation Team
